RivaOn

powered by
iskonInternet

First impulses *(3 years ago)*

- New IT computer room used only 4-5 %,

- ISDN conection

- Students interest for Internet,

- Teachers need for education in informatics,

- CUC `99 stimulated the use of Internet in classes as well as the creation of WEB of the School,

- The need to present our School.

Positive experiences

- Approximately 70% of teachers gathered computer skills and using the Internet,

- Discovered innovations usable in classes,

- Students create WEB, and learn new programs,

- Cooperation with other schools and institutions,

- Free access to Internet in IT computer room as access to new sources,

- New technology in classes:

  - Especially CD-ROM presentations,
  - Doctors and nurses multimedia presentations
  - Croatian language classes on WEB.

The Continuation of the Project:

Inform

High Schools of Zadar County On-line

The beginning of realization

- Project started in September 2001.
- Purpose of project *RivaOn* was to spread and realize positive experience to the other High Schools of Zadar County,
- Closer relationship among schools,
- <u>ALL</u> information`s about High School s and cultural events of Zadar County,
- Project supported by:
  - **All High Schools principals,**
  - **Department for Social Activities of Zadar County,**
  - **The City of Zadar**

Main Organization

- Medical High School became the host and bearer of *RivaOn*,

- Main and responsible editor Edin Kadić,

- Unprofitable project,

- Suported by Department for Social Activities of Zadar County,

- City of Zadar.

- Donations of Iskon Internet d.d.

Main structure

- Ambrace 21 High Schools in:
  - **Students team** (3-5 students of each school)
    - Meeting every second week,
    - Prepare texts and photography,
    - Arranging new materials.
  - **Teacher`s team** (one from each school)
    - 80 % not teachers of computing.
    - Meeting monthly,
    - Giving official School information`s
    - Animate students and teachers
- *Department for Social Activities of Zadar County,* decided to pay a fee, giving two hours out of curriculum per week,

Step by step!

- *RivaOn* organize courses for students and teachers for making own WEB sites,

- Give help in creation schools and class WEB sites and all technical suport,

- Spread interest for now programs and new tehnology,

What is the aim of RivaOn?

- To reach easier and delightful way to introducing with PC, Internet and new technology,
- Animate the students and the teacher on creations,
- Teachers education, permanent education and communications,
- Available schools information's, programs, educational activities,
- Students have new sources,
- Zadar County culture and entertainment on *RivaOn.*

What we realized

- Succeeded to give information's about Schools,

- Presenting Zadars`s culture events,

- Connecting schools,

- Stimulated infomercial education,

- Growing interest (200-250 daily visits),

- Increasing interest of citizens,

- Successfully present *RivaOn* on several seminars where RivaOn became a pattern for the other schools.

That's the way we realise our ideas
and new processes of learning
using the ICT!

Good luck!
