

Ronald Wertlen received a B.Sc.Hons cum laude in Computer Science, with emphasis on cognitive and AI systems, in 1995 from Rhodes University, South Africa. In 1994, he had received a B.A. in Psychology and Philosophy also from Rhodes. In succeeding years he worked on commercial projects related to bibliographic search, peer-to-peer office automation systems and Internet search in South Africa, USA and Germany. Currently he leads the DFN S2S project. <rw@neofonie.de>
