

Franck Cappello is a computer scientist at CNRS and heads the Cluster and Grid group at LRI, the Grand-Large team at INRIA and the ACI GRID CGP2P research program. He is an editorial board member of the "international Journal on GRID computing" and steering committee member of IEEE/ACM CCGRID. He organises annually the Global and Peer-to-Peer Computing workshop. He has initiated and manages the XtremWeb (P2P platform for HPC) and MPICH-V (Fault tolerant MPI) projects. <fci@lri.fr>
