

Biography

I was born in Zadar on the 7th of September 1980. I attended mathematical high school Franjo Petrić in Zadar. I participated in competitions in mathematic and informatics during elementary and high school. I also participated in a summer camp of informatics in 1997 and 2000 as a teacher.

In 1999, I started to attend the Faculty of Electrical Engineering and Computing in Zagreb. In June 2004 I am going to graduate with accent on scientific and research work and I plan to attend postgraduate studies at the same Faculty. My research interests include data warehousing, database modeling and designing. My hobby is biking.
