Miroslav Huzjak
miroslav.huzjak@uazg.hr

- frontal (ex catedra) educational method is not effective
- teachers have blind trust in student text books
- student text books often have outdated information, or even false information.
- only one resource, no critical thinking and research skills
- Is there a way that pupils learn at home or at school without a teacher?
- pupils are passive and uninterested for any school subjects
- we remember the best what we see or do by ourselves

Learning to Look

Art culture for kids

1. Theoretical level

- informational base
- links
- self-evaluation

2. Practical level

- exploring, research, games

3. Communication level

- forums, e-mail
