Participant Satisfaction In CARNet's Online Courses

CUC 2005

Petar Jandrić & Martina Hribar

November 23, 2005

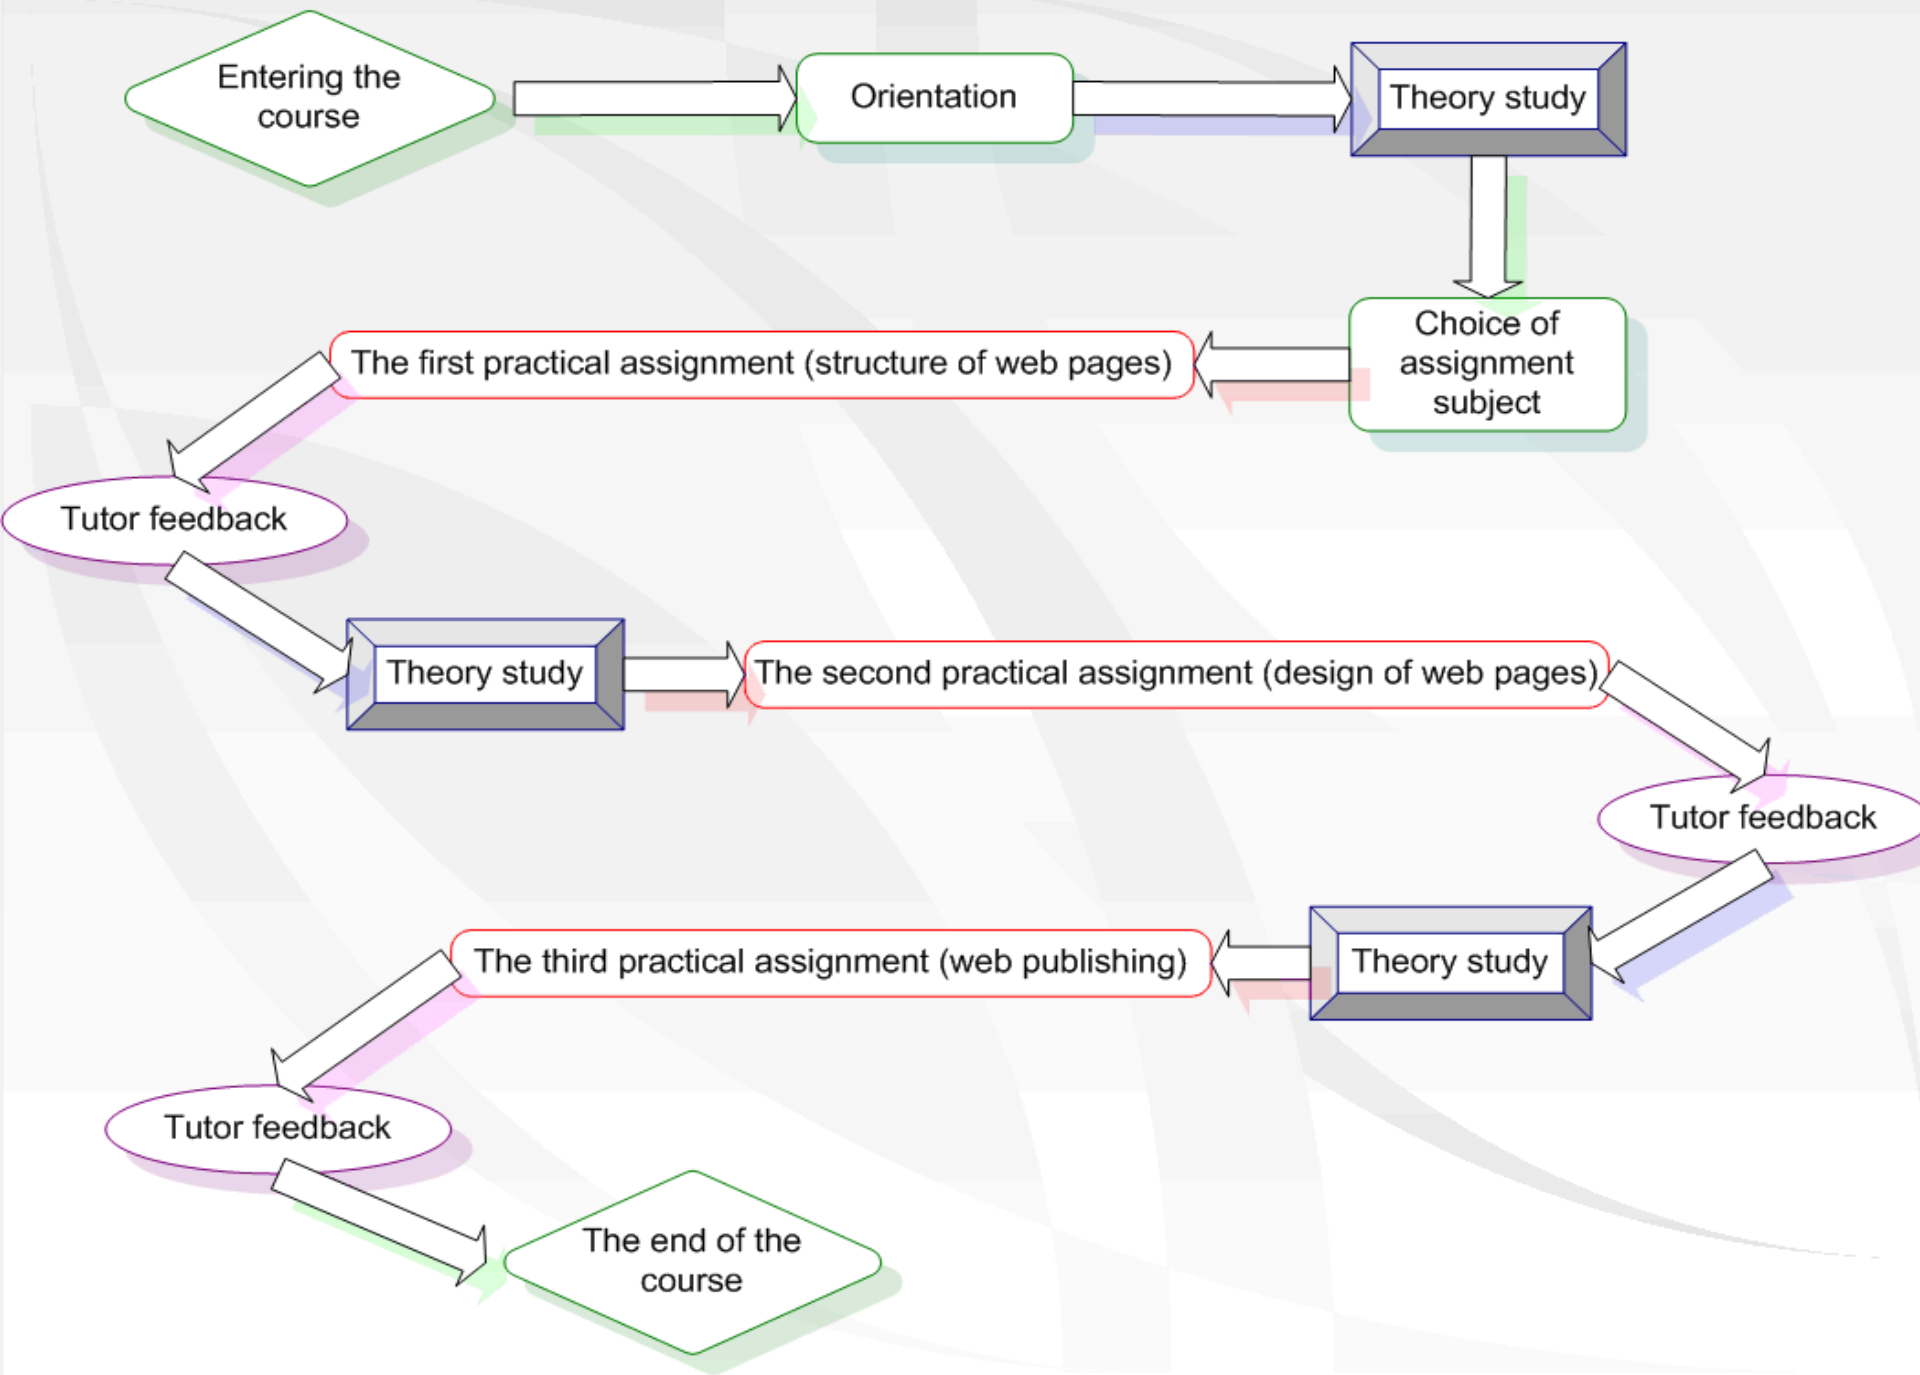

Edupoint's Online Courses

- Analysed courses
 - Searching of online databases
 - Development of online courses with WebCT
 - Development of web pages with FrontPage

- Prerequisites for attending a course
 - Basic computer skills
 - Elementary Internet use
 - English

Course Structure

- > Duration: four weeks
- > Tutoed and not tutoed versions
- > Tutoed version is strongly tutoed
- > Individualised learning – student chooses work tempo, subjects for practises...
- > Learning is problem-orientated and application-orientated
- > During the course a student is obliged to make two practical exercises and final work

The Role Of a Tutor

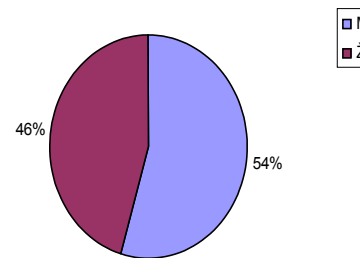

- > Communication with tutor – e-mail and forum
- > Tutor gives feedback to all exercises
- > Tutor answers all other questions, leads a student according to previous knowledge, solves technical problems...

Analysis base

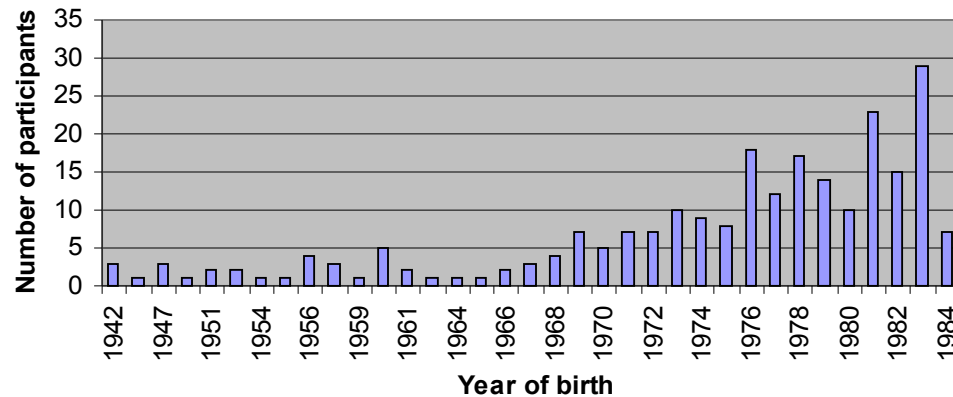

- > Courses held January-June 2005
- > Total of 303 participants from 52 places
 - Searching of online databases - 63
 - Development of online courses with WebCT - 60
 - Development of web pages with FrontPage – 184
- > Analysis mostly based on population smaller than 303 due to lack of data

Participant distribution - sex&age

Participant distribution according to sex

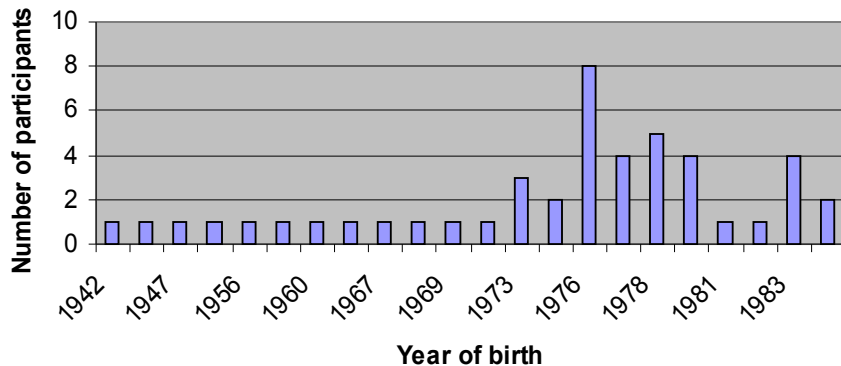

Participant distribution according to age (n=239)

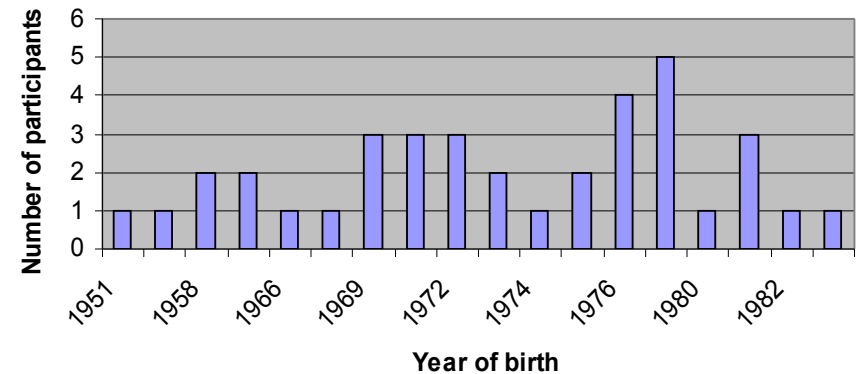

Participant distribution – age structure per course

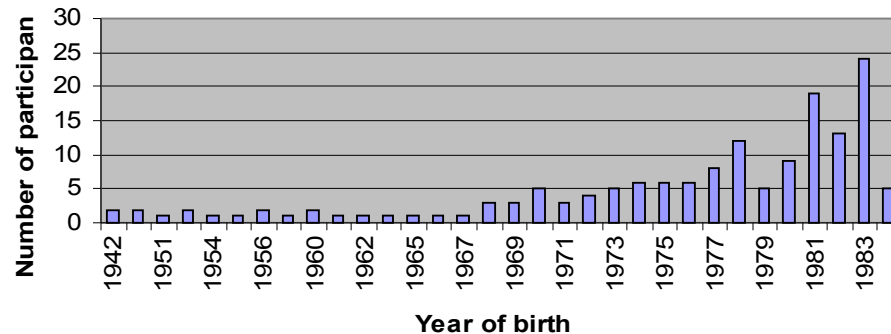

Participant distribution for the course "Searching of online databases" according to age (n=46)

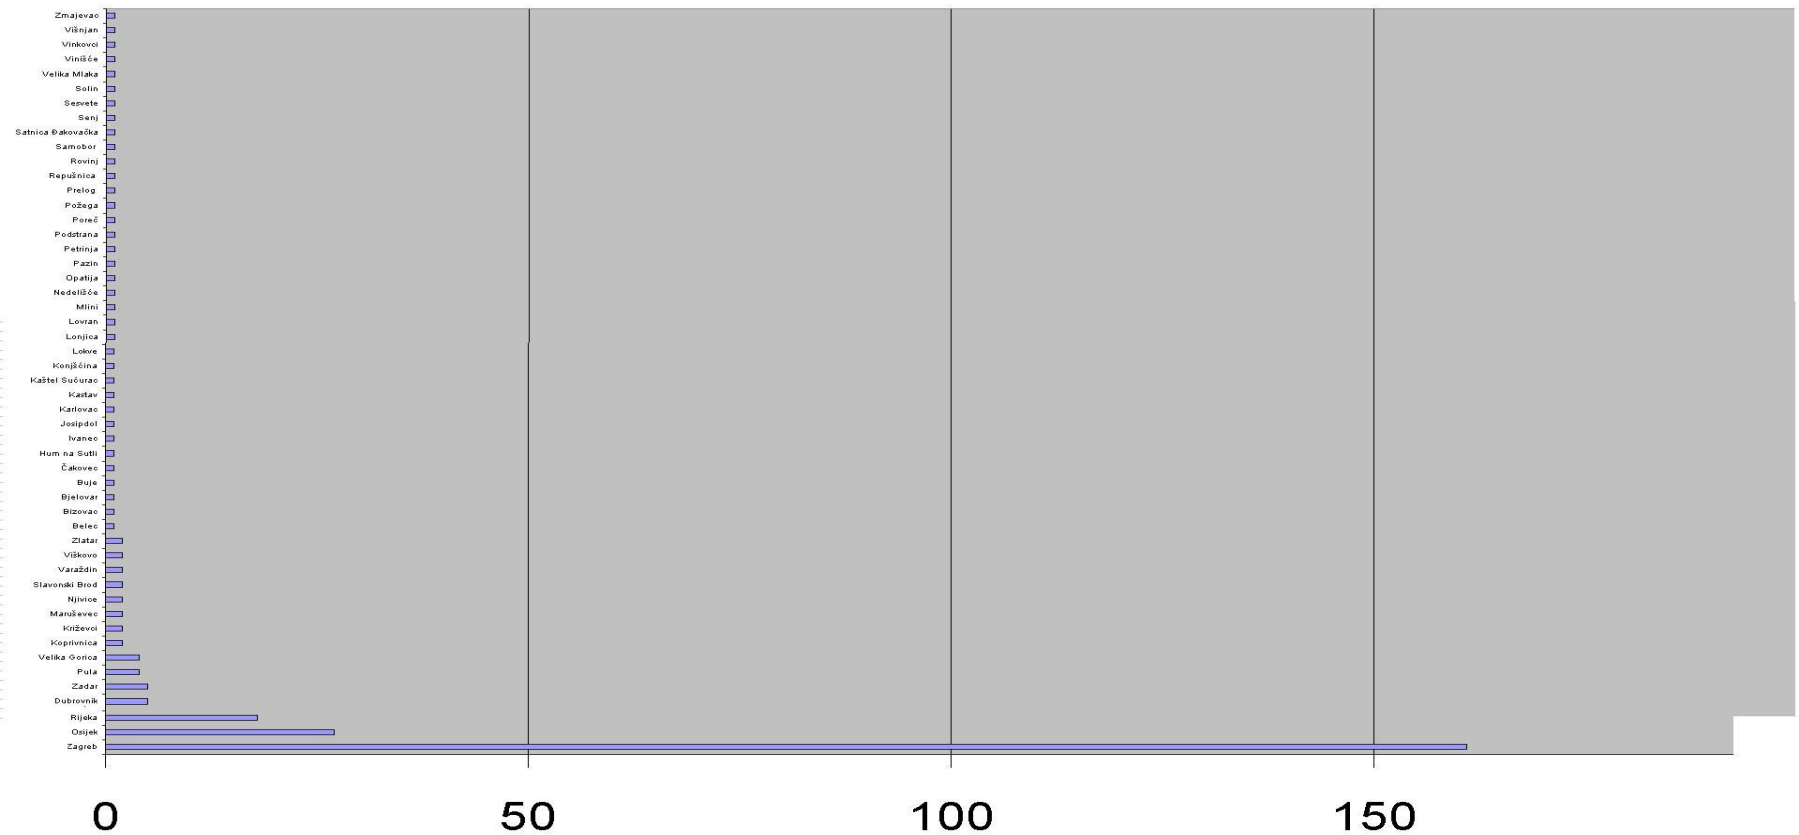

Participant distribution for the course "Development of online courses with WebCT" according to age (n=37)

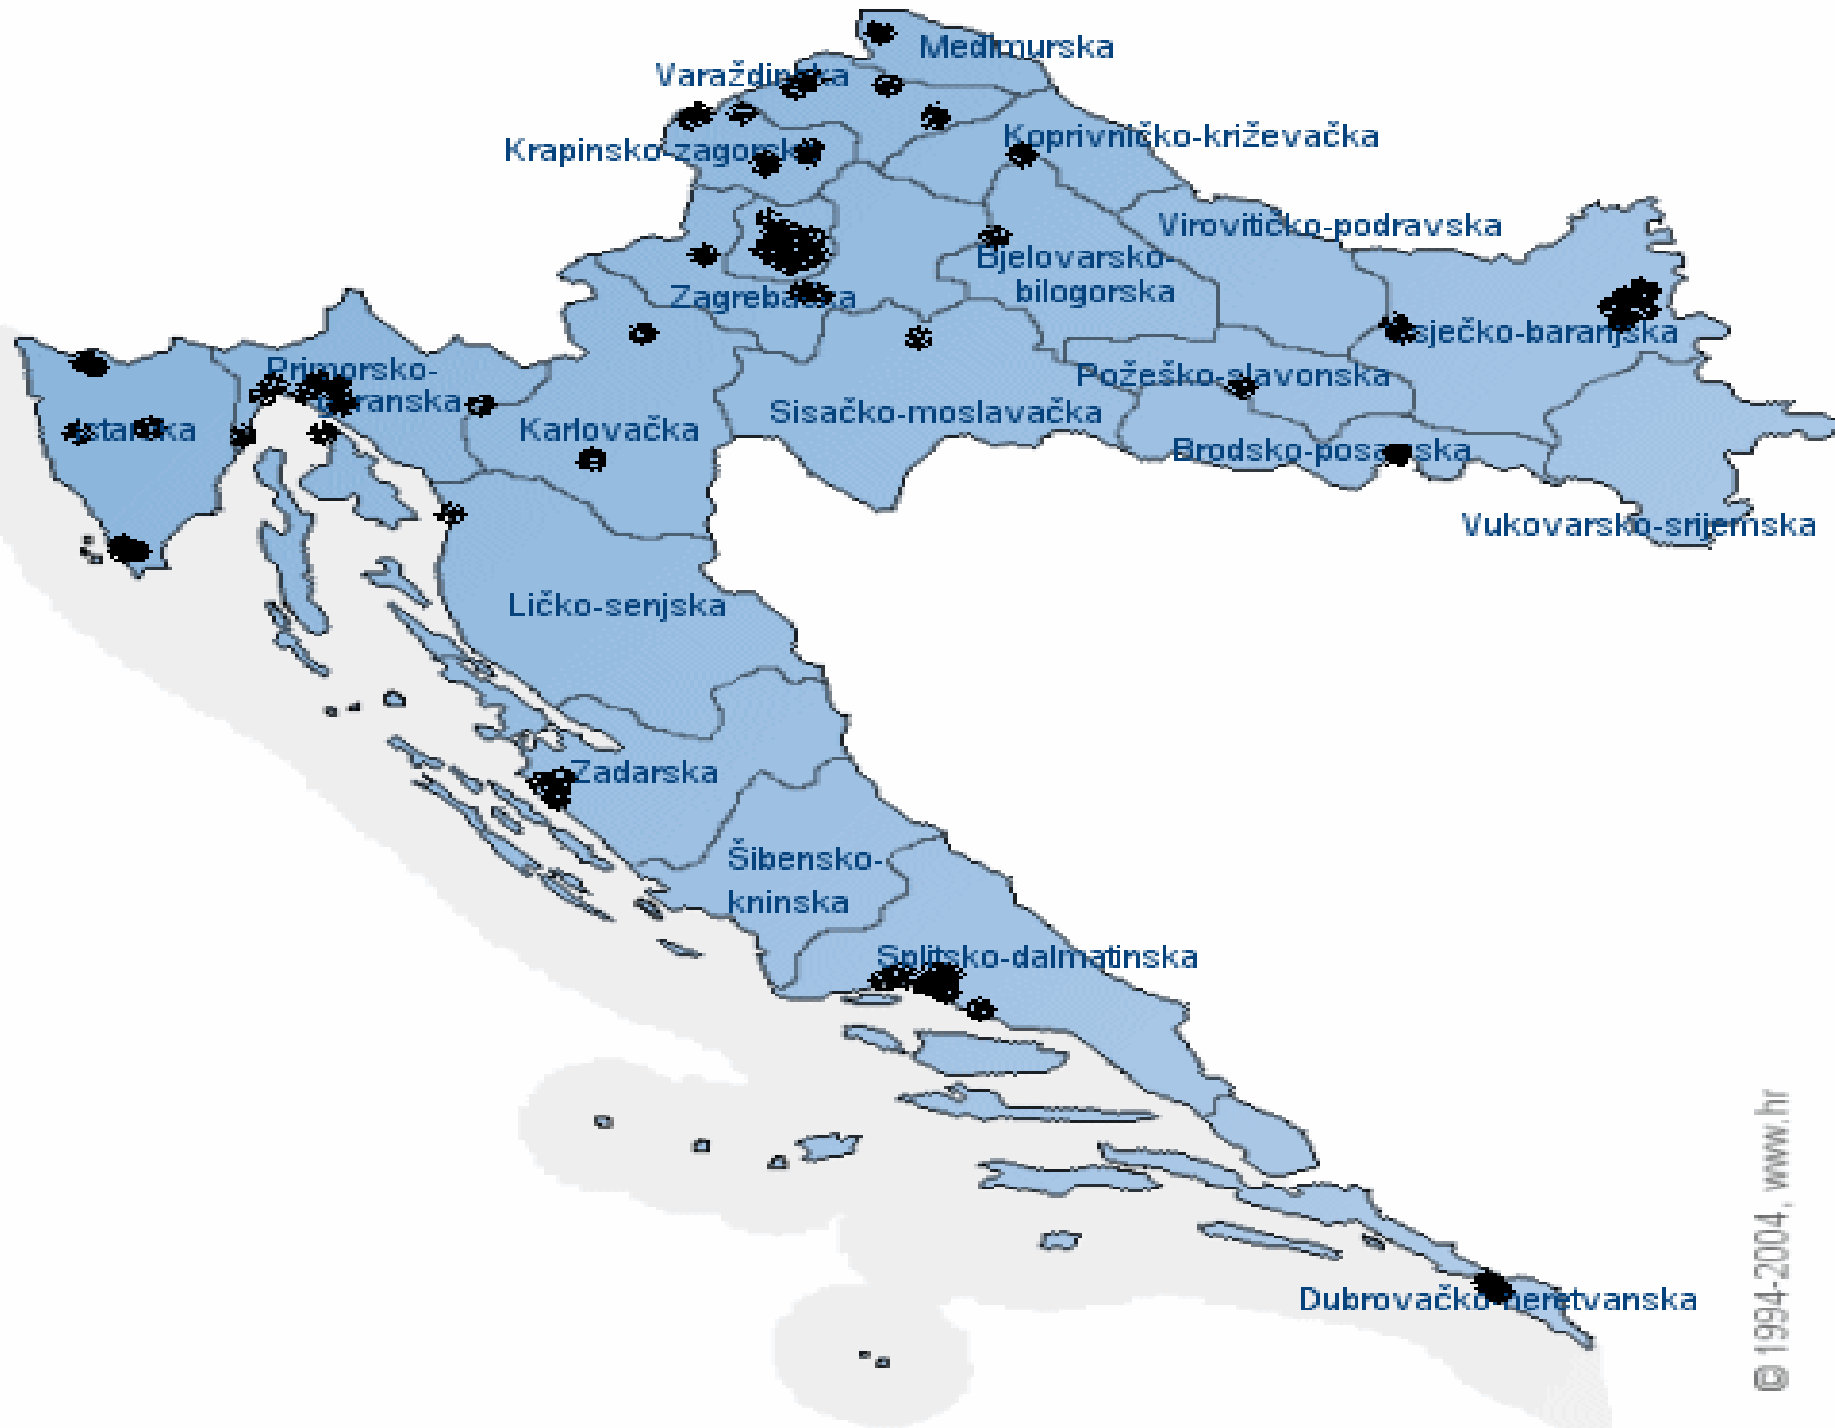

Participant distribution for the course "Development of web pages with FrontPage" according to age (n=156)

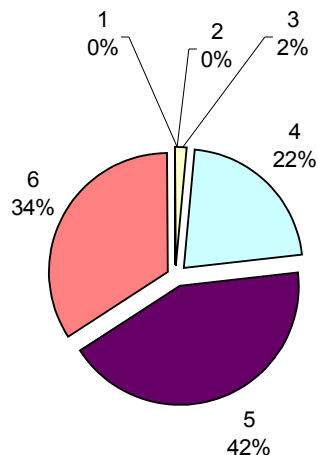

Participant distribution according to place of living (n=291).

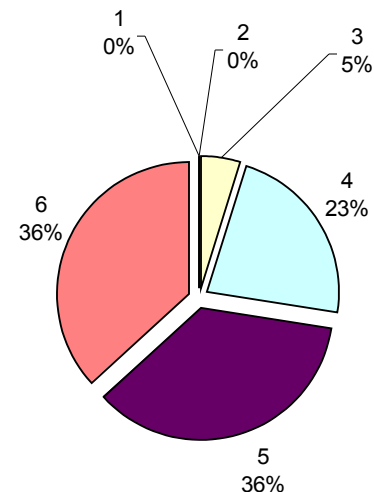

Questionnaire – course content

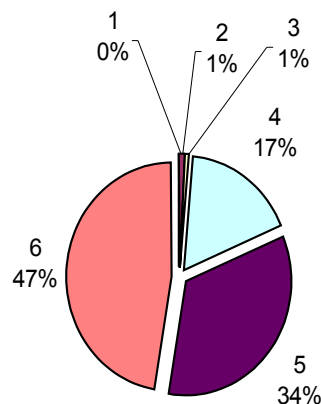

Course content is understandable and easy to follow .
(N=121)

Course content is interesting and attractive.(N=121)

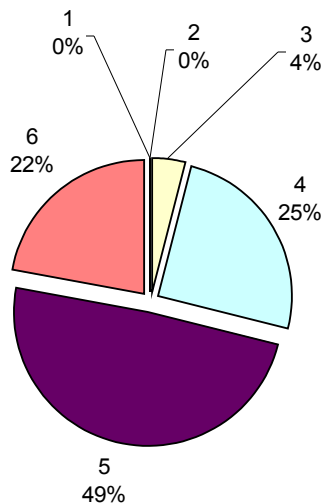

Course content is concentrated on practise. (N=121).

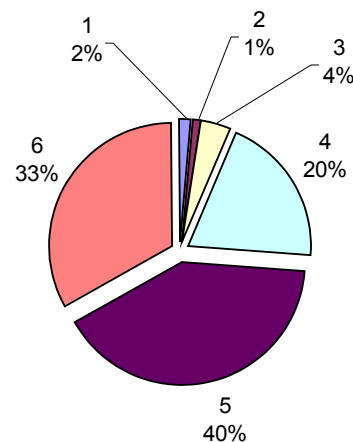

Questionnaire – lessons and assessments

What is the level of your satisfaction with lessons? (N=121)

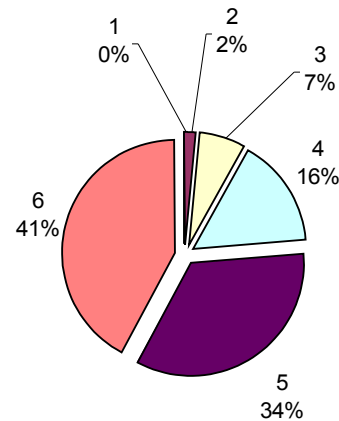

What is the level of your satisfaction with assessments? (N=121)

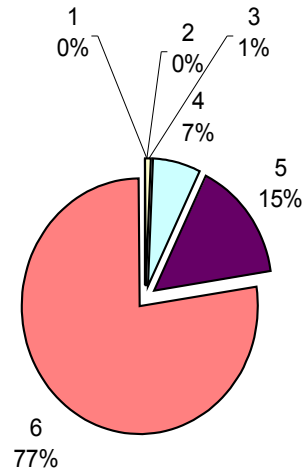

Questionnaire – technical aspects

What is the level of your satisfaction with technical aspects of the course (WebCT tool, connection speed, login)?
(N=121)

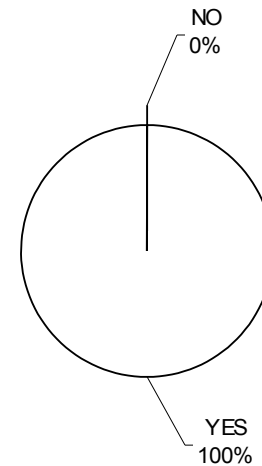

Questionnaire – tutors

What is the level of your satisfaction with tutor? (N=121)

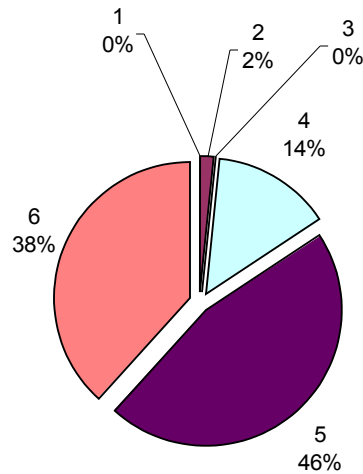

Would you choose the same tutor for another course? (N=121)

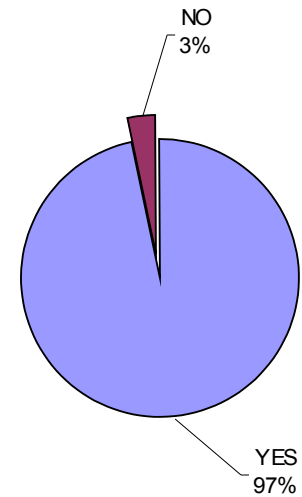

Questionnaire – overall satisfaction

Your overall assesment of the course.(N=121)

Would you like to participate in more online courses? (N=121)

Conclusion

- Courses reach the unreachable – 52 places in Croatia
- Marks are rather high – hard to make conclusions
- Still, according to our participants courses could be
 - Simpler
 - Easier to follow
 - More interesting
 - And technically better
- Tutors are graded extremely high, as well as courses in total
- Despite smaller problems, participants want to follow more online courses
- Edupoint's courses show good practise of online education in Croatia!

Thanks for your attention!
