# Internet and live music concerts – how to be (dis)connected

- Internet enables listening to live concerts,
- Internet and blog sites after the concert – a new virtual society,
- Being connected through internet means also the possibility to be disconnected.

## Internet and the use of CD, mp3, mp4 and iPods

- Internet and mp3 (mp4),
- Are mp3 (mp4) on internet (dis)connecting listeners?
- Downloading mp3 (mp4) – illegal act – act of disconnection?

# Internet, music and national identity

- Music on internet and its impact on national identity,
- Communicating through music on internet – solution only for exclusive communities?
- Internet and its impact on (dis)connecting members from a national community.

# Internet and music pedagogy

- Internet – a valuable tool for distance learning,
- Music theory and music instruments “online”,
- Youtube and music pedagogy,
- Internet, web camera and music pedagogy,
- Music software (Sibelius, Cubase, Coda Finale ...).
